

Edits

1. Replace jawal price field with "سعر قنطار".
2. Do equation: $\{\text{الوزن الإجمالي (كيلو)}\} * 2.205 = \text{result} / 318$. This equation produce = عدد القناطر .
3. User enter the price of Quntar in "سعر القنطار" field, then the total price should do this: سعر القنطار * عدد القناطر .
4. White gold page should only shows "شركة وايت قولد للتجارة و الإستثمار المحدودة #" as a title, without Jawharah name. In contrast, Aljawharah should only shows "Aljawharah" name as well.
5. Curstomers page (breaking changes):
 - date, customer, agreed qyt, type, price, total (ombaz) for bankak ishaar, date of rest of money and products (ombaz/oil).
6. instead of "زيت بذرة", make it only "زيت".
7. purchases in jawhara "سعر الجوال" should be "سعر الطن"
8. purchases in jawhara: ton price, not unit price, and new field (car number, name of driver). total= ton price * total qyt, bal instead of qyt

Later:

new purchase type: sharaa

- date
- bal
- weigh
-
